

Enforcement of UAE court judgments in India

The Government of India have notified the UAE as a reciprocal territory as required under this civil law for the execution of foreign court judgments pursuant to the judicial cooperation treaty signed between India and UAE on 1999. The Gazette notification dated 17-1-2020 shall now make it easier for creditors in the UAE to recover debts from runaway debtors who have returned to India.

How will the judgment be executed in India?

1. Judgment can be executed against a person only, not against a corporate entity. But can implead the Owner of a Limited liability company under certain circumstances pursuant to UAE Commerce companies Law.
2. District Courts in India are the designated courts for the execution of foreign judgments.
3. The Final Judgment from a UAE court, along with a non realisation certificate, needs to be forwarded for execution after duly attestation. Also English translation of all the documents in Arabic language.
4. On moving the District Court can issue a precautionary injunction order against the runaway debtor's assets without their knowledge and later by summoning the Debtor for attachment and subsequent for auction. Precisely civil law in India permits or provided adequate measures to protect the interest of creditors at the admission stage of the Execution Petition itself.
5. Other coercive action, including arrest, can be enforced if required.

What is the role of BENS International Law Firm in executing the UAE Courts judgment in India

1. BENS has an extensive network of associate law Lawyers in all districts of Kerala and covering major Cities of India in all parts of

the country. All these Lawyers and Firms are experienced in the execution of foreign judgments.
